Our district prides itself in being a strong MTSS district (RTI). The only way to have a strong system of supports in place is to have a strong core program. If you want to build a strong K-12 academic program that sustains itself over the years CLI should be your partner. After years of experiencing many different initiatives, including using the CLI Model, here is what stands out about CLI, their process and their consultants:

- The company has been in business for a long time – they know what they are doing and have adapted over the years.
- The CLI process is system-wide and includes governance procedures and organization structures for decision-making.
- Fostering teacher leadership is built into the process.
- Mandates and outside initiatives can be dealt with systematically.
- Content will be understood deeply throughout the district. Do you actually KNOW what your core program is? You will, after working with CLI.
- The consultants are of the highest quality and care deeply about education and each district they work with.

I recommend CLI in the highest possible way,

Kelly Gentry
Curriculum, Instruction, Assessment Director

Notice of Non-discrimination
